Taxpayers and Citizens of Rome:

This report is not like the ones in the past as they were made by the State Auditor from where the letter is signed by the State Auditor, to the school report.

There is an element in town that wants a complete itemized report, so we are giving you the same. Of course you understand this report will cost a lot more than last year.

The State Auditor wants the towns to have them as last year, so as to get away from that old method.

At the beginning of the year March 1st we owed the Depositors Trust Co. at Oakland one note of $4,776.00 and one of $2,250.00 — during the year we paid $1,250.00 of the above amount, which leaves one note of $4,776.00 and the $1,000.00 note making a total of $5,776.00 and that is all the notes whatever there are against the Town.

Now let us go a little further in this: — We could probably have paid another $1,000.00 on the notes — but when the town has to pay $266.00 for auditing the books and over $200.00 for lawyers that helps to use up the money.

Then came the washout on Hoyt Hill which had to be repaired.

In order to make a success of anything your Board of Selectmen should have a little cooperation even if they are not the best of Selectmen.

Every one should try to work for the interest of the town even if they don't like the officers, for in trying to hurt the Town Officers it hurts the town.

If the taxpayers in town would say, "We are going to get out of debt," it could be done.

The State Auditor was booked to come here the 15th but he has not been able to get here yet. We have not made a set-up like his but all the money received and all money paid out is listed even if it is not in its proper place. All bills payable have been made by check.

The Audit will be posted as soon as we get it done.

Selectmen of Rome.

HAROLD E. CRAWFORD
CHIEF AUDITOR

State of Maine

State Department of Audit

DIVISION OF MUNICIPAL ACCOUNTS

Augusta

April 10th, 1940

To the Inhabitants of the Town of Rome:

This is to certify that this department has completed an audit of the accounts of the municipal officers of the Town of Rome and that our general report will be submitted to the selectmen immediately.

Supplementing our report, at the request of your selectmen, we have prepared a number of copies of the Treasurer's Report for distribution to the taxpayers, which schedule is included in the regular audit report.

Due to the fact that the accounts of the treasurer were in a quite bad condition, for the first time in three years, it was necessary to make a very careful examination of all transactions made by him.

During the course of the examination, we found approximately $700.00 in checks which he had written to himself, or which he had written in payment of personal insurance, etc. These checks were all traced to their source and endorsements proved that they were used for personal expenses.

On March 1, 1940, a deposit of $342.30 was made and on March 6, 1940, a deposit of $700.00, in currency, was made by a member of the family of the former treasurer. We knew nothing of these deposits until the monthly statement was received from the bank.

The final result of this audit shows a difference of $53.41 which apparently is a cash overage and which we cannot account for. This amount is being left in the bank for a period of time and it will then be transferred to the account of your new treasurer.

To the best of our knowledge and belief, this final report of your treasurer is correct.

Respectfully submitted,

STATE DEPARTMENT OF AUDIT,
HAROLD E. CRAWFORD,
Chief Auditor.

IN MEMORIAM

Your superintendent was in deep sorrow on February 20, 1940 when he heard of the death of Arthur D. Wilde. Mr. Wilde had been

a teacher in your schools for 22 years. I had known him but a few years but during those years I found him to be a very conscientious teacher and a faithful public servant.

A friend of youth has passed on to the other life, "Where the Master of all good workmen, shall put him to work anew."

"And only the Master shall praise him
And only the Master shall blame
And no one shall work for money
And no one shall paint for fame,
But each for the joy of the working,
And each in his separate star,
Shall paint the thing as he sees it,
For the God of Things as they are."

REMARKS

Several transfers were made in the teaching staff and one school was closed. All teachers are doing good work and the schools are making satisfactory progress. It has been a pleasure to me to have worked with you as a committee. Your kindly suggestions have always been acceptable.

The financial statement for the present year follows:

Budget Committee.

To the Citizens of Rome:

This is a true report of the finances of Rome, of all monies received and paid, as per warrants. The Town has one more note of $4,774.00, held by Depositors Trust Co. of Oakland. The Town was not able to get this work audited in time for this report as the State is short of help in this department.

You will find the true finances of the March Audit.

To the tax payers of the Town of Rome:

I hereby submit my report as tax collector for the year 1941:

The total amount of uncollected tax for 1941 amounts to $1,727.03. I wish to say that no tax liens have been taken out in 1940 or 1941, all amounts turned in to the Treasurer has represented cash. I shall be obliged to take out a few liens on 1941 tax in order to protect the town as some unsettled estates are involved. There are a few uncollected taxes over a period of years which should be written off, as the property

belongs to the town now by virtue of tax liens. It was my purpose to clean up all back taxes during 1941, but illness prevented my doing that, I plan to do that as soon as possible. I beg to call your attention to the fact that without taking out tax liens, the amount of uncollected tax is the smallest in many years. I wish to take this opportunity to thank all who showed so much interest during my illness and by their assistance enabled me to make as good a showing as I have.

Signed:

GEORGE G. DOWNS, *Coll.*

CEMETERY TRUST FUND INTEREST

A. G. Turner	$2 00	
James Mosher	2 00	
Geo. Tracy	3 00	
A. P. Dudley	1 92	
J. H. Littlefield	1 31	
Betsy Watson	1 34	
Interest		$15 57

Now we need more than $150 on the 5 cemeteries. We need $50 in the Tuttle cemetery to dig up the blue berry bushes. It will do no good to cut them we have to dig up the bushes to kill them. And we need $50 back of the Pond cemetery as we want the trees cut around the wall and the stairs cleaned and we need $150. in the Blaisdell and Robin cemeteries and Hoyt Hill cemetery. We need $250 to put the cemeteries in shape.

E. A. WARREN,

Superintendent of the Town of Rome Cemeteries.

WILLIAM D. HAYES, C. P. A.
STATE AUDITOR

HAROLD E. CRAWFORD,
MUNICIPAL AUDITOR
CHESTER A. DOUGLAS,
CHARLES G. DUDLEY,
DEPARTMENTAL AUDITORS

STATE OF MAINE

State Department of Audit

Augusta, Maine

March 12, 1941

To the Inhabitants of the Town of Rome:

In accordance with your request this department, represented by Mr. C. G. Hawes has completed an examination of the accounts of your town officials for the municipal year ended February 21, 1941.

Our report, herewith submitted, was prepared from your town records and, to the best of our knowledge and belief, properly reflects the true financial condition of your municipality as of the above date; subject, however, to a probable shrinkage in final settlement of unpaid taxes, tax liens, deeds, and the balance of impounded trust funds.

The data obtained by us is summarized in the following:

		Comments
Exhibit	A	Comparative Balance Sheet
	B	Report of Treasurer
	C	1940 Valuation and Commitment
	D	Statement of Appropriation Accounts
Schedule	1	Reconciliation of Treasurer's Cash Balance
	2	Uncollected Taxes
	3	Tax Liens
	4	Tax Deeds
	5	Accounts Receivable
	6	Cemetery Trust Funds
	7	Analysis of Change from Net Debt to Surplus
	8	Accounts Payable
	9	Notes Payable
	10	Excise Tax Collections
	11	Supplemental Taxes — 1940
	12	Supplemental Taxes — 1939

Respectfully submitted,

HAROLD E. CRAWFORD,

Municipal Auditor.

COMMENTS

Cash:

All cash recorded as received appeared to be properly accounted for and deposited in the bank. Expenditures were made by check from properly authorized warrants. The cash balance was reconciled with the bank.

Tax Liens and Deeds:

All income from tax liens and deeds appeared to be properly accounted for by your Treasurer. Those unpaid as of February 21, 1941 were listed and are shown on Schedules 3 and 4.

Trust Funds:

The trust fund investments were checked and listed on Schedule 6. The income from these funds appeared to be properly accounted for.

There is a small balance amounting to $31.63 of trust fund cash impounded in the banks, which is probably of little value.

Taxes:

The 1940 tax commitment was added and found in agreement with the records of the Assessors. As far as could be determined, all cash collected has been turned over to the Treasurer. Lists of all unpaid taxes were prepared by us and shown on Schedule 2, with the exception of the unpaid taxes for the year 1934, the detail for which is not available.

REMARKS

An acute shortage of teachers now exists. Teachers are not leaving school because they wish to, but because they have to. Unless salaries are increased teachers will be forced to leave in much larger numbers next year. The increasing flow of teachers into better paid occupations threatens the quality of educational opportunity because these teachers cannot be replaced by adequately trained persons. Already standards are being lowered by the granting of "special certificates." Prices are going up and the value of the buyer's dollar is coming down. Now is the time to permit more generous financial support of schools. Incomes in general are rising faster than the cost of living. Property is worth more. Tax delinquency is less. Both the schools and teachers are doing good work. Your superintendent wishes to thank all who have contributed in any way to the advancement of the schools during the past year. The financial statement for the present year follows.

Annual Report of Public Health Nursing

— 1941 —

During 1941, twenty-one families were serviced by the Public Health Nurse. Two expectant mothers, seventeen infants, twenty-three preschool children, five school children and four crippled children were extended advisory nursing services. Medical supervision, well balanced diets, habits of play, rest and sleep, the importance of immunization and vaccination were highlights discussed with the mothers. It is hoped that in the spring the town of Rome will sponsor a vaccination clinic in order that its children and citizens may be protected against disease in such a time of national distress.

BARBARA GOURVILLE,

Public Health Nurse.

REPORT OF AUDIT

Town of Rome

Year Ended February 20, 1942

Don't forget this is the Audit from Feb. 20, 1941 to Feb. 20, 1942 and shows taxes uncollected at that date, but most have been paid since then. Not able to get yet the 1942 to Feb. 1943.

DEPARTMENTAL AUDITORS

STATE OF MAINE

State Department of Audit

Augusta

August 13, 1942

TO THE INHABITANTS OF THE TOWN OF ROME:

In accordance with the request of your municipal officers this department, represented by C. G. Hawes, has completed an examination of the accounts of your town officials for the municipal year ended February 20, 1942.

Our report, herewith submitted, was prepared from your town records and, to the best of our knowledge and belief, properly reflects the true financial condition of your municipality as of that date; subject however to a probable shrinkage in the final settlement of unpaid tax accounts, and to a substantial or total loss of the impounded trust fund balance.

The data obtained by us is summarized in the following:

		Comments
Exhibit	A	Comparative Balance Sheet
	B	Treasurer's Account
	C	1941 Valuation and Commitment
	D	Statement of Appropriation Accounts
Schedule	1	Reconciliation of Treasurer's Cash Balance
	2	Uncollected Taxes
	3	Tax Liens
	4	Tax Deeds
	5	Accounts Receivable
	6	Trust Fund Investments
	7	Accounts Payable
	8	Notes Payable
	9	Analysis of Change in Surplus
	10	Excise Tax Collections

Respectfully submitted,

STATE DEPARTMENT OF AUDIT,

Harold E. Crawford,

Municipal Auditor.

COMMENTS

CASH:

All cash recorded as received was properly accounted for as summarized on Exhibit B.

Expenditures were made by check from properly authorized warrants as summarized on Exhibits B and D.

The cash balance was reconciled with the bank as per detail on Schedule 1.

TAXES:

The 1941 tax commitment book was added and found to be in agreement with the Assessors' records. The total commitment was accounted for by cash, or was still unpaid as shown by Schedule 2.

Due to an error in a deposit made at the end of the year, an overage appeared and is shown by Schedule 7, accounts payable. Uncollected real estate taxes for 1940 were not secured by tax liens or tax deeds.

The excise tax receipts were checked, and $22.53 was found due the town, which amount has been deposited with the Treasurer in the 1942|43 year.

TAX LIENS AND DEEDS:

All receipts from tax liens and deeds appeared to be properly recorded. Those still unpaid, according to the records, are shown by Schedules 3 and 4.

TRUST FUNDS:

The trust fund investments were examined and are shown by Schedule 6. All income withdrawn appeared to have been properly accounted for. It is our suggestion that when final liquidation of the impounded trust funds is made by the bank, the balance be written off the books.

RECOMMENDATIONS:

It is our recommendation that the Selectmen insist that the Tax Collector and Excise Tax Collector deposit their entire tax collections promptly at the end of each month, and that the majority of the School Committee approve all school payrolls before they are presented to the Selectmen for payment.

GENERAL:

The records of the Selectmen were examined and all expenditures appeared to be proper charges.

With the exception of cash and trust funds, no external verification was made of the asset or liability accounts.

REMARKS

The teaching situation is critical. If the war continues many schools will be closed next year. With teachers under the contributory pension law and paying Victory taxes, it stands to reason salaries must be raised. We can not afford to lose any of our teachers at the present time. All teachers are doing excellent work. To all the teachers who cooperated with me in the sugar and gasoline rationing of last spring I extend my heartfelt thanks. These are strenuous times for both teachers and superintendents. Again, I wish to thank all who have contributed in any way to the advancement of the schools during the past year. The financial statement for the present year follows.

We need more fence in S. W. corner of the Blaisdell Cemetery and we can get it from the Brown Fence Co. as I have a catalogue and letter saying that they have it now, and we need cement to set the gate post of Tuttle Cemetery. With the pay of 63 cents an hour we will need $300. this year to do the work that we have been doing. I did not do the work last year as I have been doing it as there was not money enough.

E. A. WARREN,

Superintendent of Rome Cemeteries.

REPORT OF AUDIT

Town of Rome

Year Ended February 20, 1943

Remember this Audit is from Feb. 1942 to Feb. 18, 1943 as the 1943 Audit has not come back in time to print.

WILLIAM D. HAYES, C. P. A.
STATE AUDITOR

HAROLD E. CRAWFORD
MUNICIPAL AUDITOR

CHESTER A. DOUGLAS
DEPARTMENTAL AUDITOR

STATE OF MAINE

State Department of Audit

Augusta

June 23, 1943

TO THE INHABITANTS OF THE TOWN OF ROME:

In accordance with the request of your municipal officers, this department, represented by M. G. Allen and L. D. Daniels, has completed an examination of the accounts of your town officials for the municipal year ended February 20, 1943.

In our opinion, based upon such examination, the accompanying exhibits and schedules fairly present the financial condition of your municipality as of February 20, 1943 and the results of its operations for the period then ended.

The data obtained by us is summarized in the following:

		Comments
Exhibit	A	Balance Sheet
	B	Cash Receipts and Disbursements
	C	1942 Valuation, Tax Assessment and Collection
	D	Statement of Departmental Operations
	E	Analysis of Change in Net Surplus
Schedule	1	Reconciliation of Treasurer's Cash Balance
	2	Summary of Uncollected Taxes
	3	Summary of Tax Liens with Supporting Detail
	4	Tax Deeds
	5	Accounts Receivable
	6	Cemetery Trust Funds
	7	Accounts Payable

Respectfully submitted,

STATE DEPARTMENT OF AUDIT

HAROLD E. CRAWFORD,

Municipal Auditor.

COMMENTS

CASH

All receipts as recorded were examined and found to have been deposited in the bank currently as summarized on Exhibit B.

Expenditures were made by check from properly authorized warrants, supported by invoices and payrolls on file, as summarized on Exhibits B and D.

The cash balance was reconciled with the bank and found to be correct as per detail shown on Schedule 1.

TAXES — PROPERTY AND POLL

The 1942 tax commitment was found to be in agreement with the Assessors' records. The balance due from the Collector on this commitment is summarized on Schedule 2.

The unpaid prior years' taxes are also shown on Schedule 2.

Payments on tax liens appeared to have been applied against the proper items and those still remaining unpaid are shown on Schedule 3.

The tax deeds are shown on Schedule 4. No payments were received on same during the year.

As the collectibility of many of the tax accounts seemed questionable, a reserve for loss in the amount of $1,500 was set up.

EXCISE TAX

The excise tax was verified with the triplicate copies of receipts as follows:

1942 Receipts No. 1-133	$404 38
1943 Receipts No. 1-5	19 67
NOT USED AND CARRIED TO NET SURPLUS (Ex. E)	$424 05

TRUST FUNDS

The trust fund investments were examined and are shown on Schedule 6. The final dividend on impounded cash has been received.

All income was withdrawn and properly expended with the exception of $1.50 which amount is in the town treasury and shows as a balance forwarded on Exhibit D.

GENERAL

The records of dog licenses issued by your Town Clerk indicate total receipts in the amount of $174.40 which amount was paid to the State Treasurer.

A check was made of all paid invoices and payrolls and they appeared to be proper charges and correctly recorded.

With the exception of cash and trust funds, no external verification was made of your asset and liability accounts.

It would seem advisable to take some action to collect the Accounts Receivable as many of the items date back several years. If uncollectible, they should be written off.

REMARKS

War conditions have drawn many teachers from the profession. I feel we have been fortunate to operate our schools with no changes in teaching personnel. I hope we may continue to be as fortunate. Even though the teacher shortage is a critical situation in our state and nation, we must in no way lower the standards of our schools. Instead, we, as school officials, must be ever alert to see that our children are taught how to do — that is, how to work; that they are provided with the training they need to be able to earn their living and become useful citizens in the post-war world.

To see how the children measure up to the standards, they were given the Stanford Achievement Tests last fall. From the results of the tests the teachers were able to plan their teaching programs to meet

the needs of each individual child. Another series of these tests will be given this spring to learn the progress which has been made.

The children of the Town of Rome have done an outstanding piece of work in the purchase of War Savings Bonds and Stamps. The Long Pond School has a 100% record with each child buying at least one stamp each week.

This year we have adopted for all grades a new Spelling series, in workbook form, called "Goals in Spelling." The goals are pronunciation, spelling, meaning, and use. These goals are attained by oral and written drill with phonetic spelling, dictionary work; and self and teacher testing. We are looking for better results than those obtained heretofore.

While we must practice every economy, yet we must be sure it is real economy. Some of the school buildings are in better condition than others. While those needing attention can remain as they are for some time, I feel with others if we could do a little each year toward painting the exteriors and redecorating the interiors, it will save a large expenditure at one time.

The financial statement accompanying this report shows the total receipts and disbursements of the school department for the year ending February 1944. The total receipts for the year were $6,184.06. The total disbursements were $5,807.16. The unexpended balance is $376.90.

In conclusion, I wish to acknowledge my indebtedness to the school committee, town officers, teachers, and citizens for their helpfulness and support.

Respectfully submitted,

JAMES DEWEVER,

Superintendent of Schools.

Report of Public Health Nurse

1943

This year, twenty-one working days have been spent in your town carrying out the Health Program. This included regular home visits to the expectant mothers, infants and preschool children, and monthly Pediatric and Crippled Children Clinic Service for those needing the service.

The school program has included visits to the schools, conferences with the teachers regarding problems, and follow up visits in the homes to discuss these different problems with the parents. Under the same program was the audiometer tests for hearing which have been done this school year in all schools except Long Pond School which will be done later. It is gratifying to report that none of the children have defective hearing.

One Child Health Conference, for the examination and immunization of the infants and preschool children, was held. The interested mothers gave splendid assistance to this conference.

Our aims this coming year should be directed toward the strengthening of our combined efforts so that every American family will be conscious of health as a definite contribution to our continued happiness. Let us say, also, that maintaining a Good Health Program for this year shall be our part of the war effort.

Respectfully submitted,

EUNICE S. NOLLET,

Field Nurse.

Augusta

February 29, 1944

TO THE INHABITANTS OF THE TOWN OF ROME:

In accordance with the request of your municipal officers, this department, represented by C. G. Hawes and W. E. Burgess, Jr., has completed an examination of the accounts of your town officials for the municipal year ended February 18, 1944.

In our opinion, based upon such examination, the accompanying exhibits and schedules fairy present the financial condition of your municipality as of February 18, 1944 and the results of its operations for the municipal year then ended.

The data obtained by us is summarized in the following:

COMMENTS

CASH

All receipts as recorded were found to have been properly accounted for and the cash for same deposited in the bank currently as summarized on Exhibit B.

Expenditures were made by check from warrants drawn by the Selectmen as summarized on Exhibits B and D.

The cash balance reconciled with the bank statement at the close of the municipal year as per detail shown on Schedule 1.

TAXES — PROPERTY AND POLL

The 1943 tax commitment was added and found to agree with the records of the Assessors. The total commitment was accounted for by cash, abatements, a small amount due from the Collector, or was still unpaid as summarized on Schedule 2.

According to the records, payments received on prior years' unpaid taxes have been credited against the proper items. Those still unpaid are also summarized on Schedule 2, with supporting detail for all years being shown on Schedule 2-a, with the exception of 1934, the detail of which is not available. The unpaid 1942 real estate taxes have not been secured by either the tax deed or tax lien method.

All recorded receipts on tax liens and deeds were found to have been applied against the proper items. Several tax liens were charged off as of no realizable value upon written authority from the Selectmen. The tax liens and deeds remaining unpaid are summarized and detailed on Schedules 3 and 4.

The cash collection of the current year's taxes was 92.6%; while all taxes collected during 1943, both current and prior, amounted to 105.8%, both as against the current commitment.

EXCISE TAX

1943 excise taxes were checked from the triplicate copies of the receipts and the amounts specified had been deposited with the Treasurer. An overpayment of $19.67 was made by the Collector. The receipts and disposition of same follows:

1943 Year — Receipts No. 6 - 96; No. 175 - 192	$299.07
DEPOSITED WITH TREASURER (Exhibit B) AND TRANSFERRED TO NET SURPLUS (Exhibit E)	

No deposit had been made for the 1944 collections.

TRUST FUNDS

The trust fund investments were examined and the detail is shown on Schedule 6. The income appeared to have been properly accounted for.

NET SURPLUS

Reference to Exhibit A indicates that as of the close of the municipal year, there was a Net Surplus in the amount of $8,839.44 as compared with a Net Surplus of $6,495.09 shown the year previous. This represents a beneficial change of $2,344.35, the analysis of which is shown on Exhibit E of this report.

GENERAL

Our test check of paid bills and payrolls indicated they were proper charges and correctly recorded.

The Withholding Tax records were examined and found in good condition.

With the exception of cash and trust funds, no external verification was made of your asset and liability accounts.

It is our recommendation that some action be taken in the collection of prior years' taxes. It is also recommended that the excise tax collector deposit his collections each month as required by statute rather than make one deposit a year.

SCHOOLS, TESTS, AND EYES

The five elementary schools opened on September 5, 1944. At that time there were 5 pupils registered at the Blaisdell School; 21 pupils at the Dudley School; 11 at the Long Pond School; 14 at the Robbins School; and 11 at the Whittier School.

The results of the Stanford Achievement Test, to which I referred in my last report, show that the teachers are making very good progress in their instruction. As we work with the results of these tests, it is noted that the rate of progress depends upon a number of factors, of which, the following are the most essential: daily attendance, age, and mental ability. - - - - The age and physical development of the child at the time of his initial entrance into school; his mental capacity to learn; and the regularity of his attendance, whereby, he may take advantage of all instruction.

I have put much thought and study into trying to diagnose the learning difficulties in our schools. I found many of them in, or leading from, the field of reading. In carrying my investigation still further, I found again and again, a teacher who had apparently tried in vain to teach some child to read, and has even thought the child below normal mentally because he has not progressed, when the real trouble had been that he had not been able to see clearly the printed page before him.

It is known that the work of the eyes in reading includes at least four interrelated factors; lighting visual acuity, sharpness of focus, and eye co-ordination. The Snellen Test which has been given in the schools for years doesn't test these things. This year we are using a Keystone Ophthalmic Telebinocular which is designed for binocular tests of visual functions. With this instrument, the vision of each eye can be studied while both eyes function simultaneously. These simple tests provide practically the only rational means of measuring the binocular relationship.

Professor Emmett A. Betts, noted authority on reading, says,

"These are the first tests devised to appraise the co-ordinate action of the eyes under conditions simulating the reading process. The chief factors contributing to the validity of the tests of Visual Sensation and Perception are:

1. Each eye is tested independently while both eyes are seeing as habitually. This is accomplished by having a stereoscopic pair of photographs before the eyes. To all appearances the right-eye and left-eye halves of the slides are identical except that the small test objects are omitted from the right-eye half while the left-eye is being tested and vice versa. This is achieved without the subject being aware of the phenomenon.
2. Binocular co-ordination which is suspected as being essential to rapid and efficient reading habits is appraised. Muscle, balance, book distance and blackboard distance fusion, and eye co-ordination power are tested.
3. Two-eyed visual efficiency as well as the acuity of each eye is tested."

It is a much longer process to give these individual tests than it was to give the Snellen Test. When they are completed and the difficulties are found, notification will be sent to the parents. If a child needs the attention of an oculist, I trust those services may be available, for then any hindrance to the learning caused by the eyes will have been corrected as far as possible. The teachers will be glad to give you a more detailed account of the results of the test if you will call at the schoolhouse. May I say at this time, I cannot urge you enough, as parents, to visit school frequently, to see your child at work and to learn of his behavior and progress; for it is only as the parents and the teacher work together with a common understanding for the best interests of the child, will he get the most out of his years at school.

The financial statement included in this report shows the total receipts and disbursements of the school department for the year ending February 2, 1945. The total receipts for the year in the common school fund account $5,022.27, high school tuition account $1,752.50, books and supplies account $342.97, repairs account $292.39, administration account $285.00. The total disbursements in the common school account were $4,376.75, in high school tuition account $1,597.00, in books and supplies account $306.69, in repairs account $195.17, in administration account $282.49. The unexpended balance in each account is as follows: common school account $645.52, high school tuition ac-

count $145.50, books and supplies account $36.28, repairs account $97.22, administration account $2.51.

In conclusion I wish to acknowledge my indebtedness to the school committee, town officers, teachers and citizens for their helpfulness and support.

Respectfully submitted,

JAMES DEWEVER,

Superintendent of Schools.

NO. 2

There were seventeen lots sold in 1945, I sold fifteen. Geo. Kelley sold two, one to Ed Austin and one to Fred Robinson.

The following lots have not been paid for: Leon Drury's and Fred Robinson's.

Fred Robinson claims that he is entitled to a lot as he was a soldier, but he is not, all he is entitled to is a grave in the soldiers' lot that I know for a fact.

Now as this was my last year — I say what ought to be done the coming year — there should be 300 lbs. of ammonia nitrate on the Tuttle Cemetery, that will put it in good shape. It would be a good plan to put ashes on the Cemetery, too.

There are five Cemeteries to take care of — it is also the Sexton's job to cut the grass around the Church.

E. A. WARREN,

Supt. of Burials.

E. A. Warren, Supt. of Burials, claims two lots for soldiers, next to the Pauper lot.

TOWN OF ROME FOR YEAR 1945

Greetings:

1945, Victory in war, and we ask ourselves, have we been as faithful in our duties on the home front? Have we given sufficient thought to developing a stronger generation by building healthier bodies, cleaner minds, and better morals? Have we protected our children from communicable diseases? The State Bureau of Health through its Public Health Nursing Service has endeavored to help your community to do these things; by teaching the principles of good health, physically, mentally and morally. Our Staff is still depleted but we are trying to maintain these principles.

Some scheduled health work has been postponed due to communicable diseases in the community. Nevertheless, it gives me pleasure to report the following for the year 1945:

14 days of Public Health Nursing Service were given to your town. This was divided into home visits to expectant mothers, infants and preschools.

1 Child Health Conference was held with 7 attending, all receiving physical examinations and immunizations against whooping cough, diphtheria, and smallpox. The Child Health Conferences plan was discontinued for the year due to the prevalent communicable disease as mentioned above.

All 5 schools were visited and 59 tuberculin tests given. The positive reactors were x-rayed with no active tuberculosis cases found.

The following activities are suggested for Health work in 1946:

1. Child Health Conferences, at least 3 during the year.
2. Routine tuberculin testing of all children and adults if desired.
3. Audiometer testing for hearing loss in all schools.

Respectfully submitted,

EUNICE S. NOLLET,

Public Health Nurse.

Gentlemen:

In accordance with Chapter 16, Section 3, Revised Statutes of 1944 and at your request, the records of the town of Rome have been audited by Auditor Carl G. Hawes for the period February 18, 1944 to February 19, 1945 inclusive.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. In the accompanying comments, you will find an exception noted as relates to this examination. This is briefly as follows:

> The Tax Collector and Excise Tax Collector have not deposited their collections monthly with the Treasurer as required by Chapter 81, Section 105, Revised Statutes of 1944.

This should have your attention so that subsequent audits will not reveal the same condition.

Exhibits and schedules incorporated in this report impartially present the financical position of the town of Rome and the result of its operation for the period designated.

Comments and other data incorporated in this report may prove of interest to you. All of which is respectfully submitted.

Very truly yours,
FRED M. BERRY,
State Auditor.

COMMENTS

Re: Audit of the town of Rome
February 18, 1944 to February 19, 1945

All receipts as issued were examined and found correctly recorded. Deposits as entered on the bank statements were compared with the receipts.

Cash on deposit and subject to check as of February 19, 1945 reconciled with the bank statement.

Expenditures were made by check from warrants drawn by the Selectmen.

Payments received on tax liens appeared to have been applied against the proper accounts. Those remaining unpaid were checked.

The trust fund investments were examined and it appeared that the income received had been properly accounted for.

The tax commitment was compared with the records of the Assessors. It was ascertained that this commitment was accounted for by cash paid the Treasurer and abatements, or unpaid taxes as reflected on the records of the Collector.

It was necessary to check all payments as recorded on the Tax Collector's cash sheets.

The 1944 Excise tax collections were checked from the copies of the receipts and $21.48 was found due from the Collector. The 1945 excise taxes collected to February 19, 1945 amounting to $97.60 had not been deposited with the Treasurer. We would recommend that the Tax Collector and Excise Tax Collector deposit all collections with the Treasurer monthly.

The records of the Selectmen were examined and approximately sixty warrants were checked to the distribution book.

Payrolls were test checked.

EQUALIZATION

In December 1946, the Town of Rome will not receive any equalization money from the State. This is because the law states the school tax rate for a town must be above the average for the State if the town is to receive equalization; and the school tax rate for the Town of Rome is .01126, while the average tax rate of the several towns for school maintenance in the State is .01800.

Our school tax rate of .01126 is arrived at by dividing our local school maintenance appropriation, which is $5,600, by the State valuation of the town, which is $497,413.

During the month of November, the superintendents of schools in the State were called to Augusta for a week to listen to lectures by, and consult with, Dr. William H. Burton of Harvard University, consultant for the State Department of Education in the building of a new Elementary School Curriculum.

Much is being done to provide better educational opportunities for the children of the State of Maine, by requiring better training and preparation of teachers, planning a richer curriculum, and securing better materials with which to work.

Along with higher standards for teachers comes their demand for higher salaries. This has brought about a serious teacher shortage in the State of Maine. Many teachers have gone to other states which pay salaries more in keeping with the demands made upon them. Dr.

Harry V. Gilson, State Commissioner of Education, advises us that he expects an even greater shortage for the coming school year. In Rome we have been fortunate to secure teachers who live locally.

All grades from the pre-reading level through the eighth grade have now been equipped with the Scott Foresman basic reading series. This provides excellent material for a strong reading program.

The financial statement included in this report shows the total receipts and disbursements of the school department for the year ending February 9, 1946. The total receipts for the year in the common school fund account $6,042.57, high school tuition account $2,820.50, books and supplies account $236.28, repairs account $247.22, administration account $287.51. The total disbursements in the common school account were $4,692.95, in high school tuition account $1,777.83, in books and supplies account $225.29, in repairs account $211.87, in administration account $307.54. The unexpended balance in each account is as follows: common school account $1,349.62, high school tuition account $1,042.67, books and supplies account $10.99, repairs account $211.87. There is a deficit of $20.03 in the administration account.

In conclusion I wish to acknowledge my indebtedness to the school committee, town officers, teachers and citizens for their helpfulness and support.

Respectfully submitted,

JAMES deWEVER,

Superintendent of Schools.
